

# Problems and Solutions Tree

Use this template to explore the problems and solutions for any issue.

## Problems Tree

**Trunk:** represents the issue

**Branches:** represent the impact on individuals and society

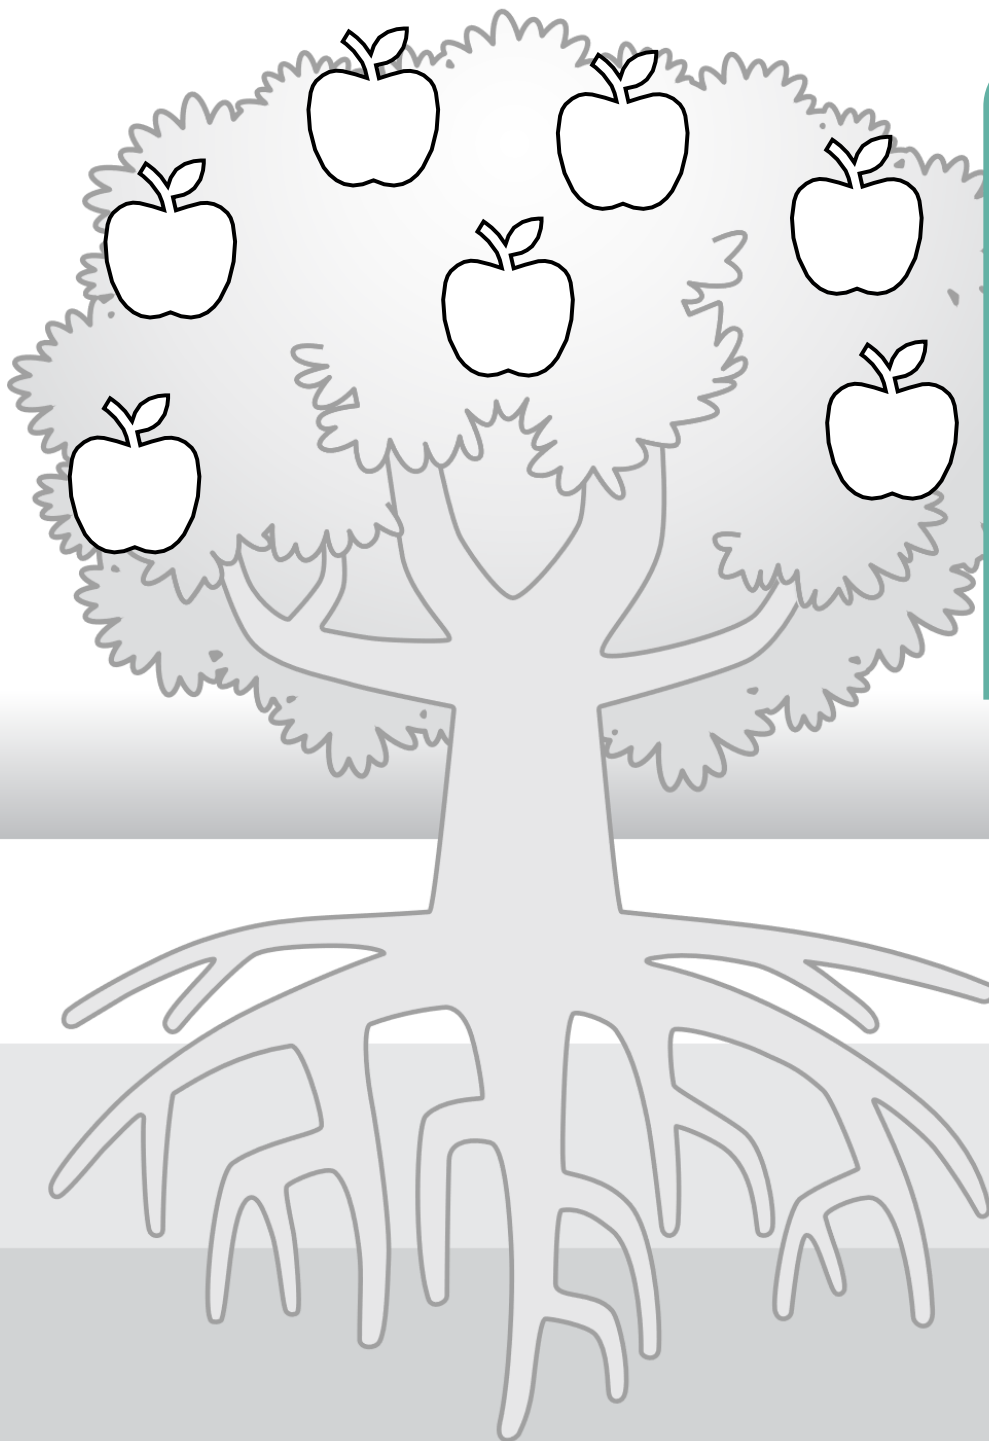

**Surface roots:** represent the immediate causes of risk activities

**Deeper layer of roots:** represents the situations that make people personally vulnerable and expose them to risk

**Deepest layer of roots:** represents issues that make societies vulnerable

# Problems and Solutions Tree

## Solutions Tree

**Trunk:** represents the issue

**Deep layer of roots:** represent the changes required at the personal level

**Deepest layer of roots:** represents the changes required in society

**Fruits:** represents the effects of the changes
